

COMPREHENSIVE WOMEN'S HEALTHCARE

IMPORTANT INSURANCE INFORMATION

You are scheduled for your "Well-Woman" or Annual exam. This visit is defined as complete breast and pelvic exam. Your vital signs and medical history will be recorded and reviewed. If appropriate, a mammogram will be ordered and any existing prescriptions will be refilled.

If a problem is discovered or if you have symptoms you would like to have addressed with your doctor or nurse practitioner, this will change the nature of your visit and subsequent billing. Your insurance company will be billed for a problem-focused visit and not a Well woman or annual exam. Some examples might include"

***CHANGES IN HORMONES, WEIGHT OR PERIODS**

***NEW PRESCRIPTIONS**

***BREAST PAIN OR LUMP**

***URINARY DIFFICULTIES, VAGINAL DISCHARGE**

***SEXUAL PROBLEMS**

***DIFFICULTY GETTING PREGNANT**

Depending on your insurance contract, a problem focused visit may require a referral or pre-authorization. Some patients may find that these services are subject to a higher co-payment or deductible. In the future we encourage you to contact your insurance company to verify your benefits prior to your appointment. This will help reduce confusion at the time of your visit.

Please be advised that you must present your insurance card or cards and any necessary referral and medical records at the time of your appointment. Failure to do so may require rescheduling your appointment.

I have been advised of the definition of the Well-Woman or Annual exam. I accept financial responsibility for the services requested or required today. I understand that I may request clarification of any testing and billing before services are rendered.
